New Best-Value SAM4s POS Cash Drawer

St. Paul, MN – CRS announced that the new Model 60 POS cash drawer has been added to the SAM4s cash drawer line. The sturdy metal drawer is designed to be driven by the POS printer or POS terminal using a standard RJ connection. The Model 60 is available in either 12v or 24 v configurations.

Model 60 POS Cash Drawer

The Model 60 POS cash drawer is wider than the popular Model 57 POS cash drawer. With standard bill compartments 2 13/16” wide, it is wide enough to accommodate Canadian currency and provides a roomier fit for US currency. The drawer features a removable insert with adjustable coin dividers, media slots, and a large storage area under the insert tray.

For reliability and long life, the drawer is built with steel wire bill weights, steel side rails, nylon rollers and a heavy-duty 2-stage latch mechanism. A 3-position/4-function security drawer lock provides security and access.
