## More Memory, More Apps for SAM4s ECRs

St. Paul, MN –[SAM4s ER-900 Series](#) are now being shipped with 16 MB of standard memory—enough to support over 20, 000 PLUs. These flexible mid-priced ECRs power a wide range of merchant applications including retail stores, liquor stores, bars, cafeterias, concessions and other small food service outlets.

In a market crowded with POS and new tablet-based offerings, commercial grade ECRs still command a large niche. “A SAM4s ECR is truly the best-value POS bundle available today,” said CRS Director of Sales Craig Fuss. “With a high-quality cash drawer, keyboard, printer(s) and flexible application software, SAM4s ECRs provide the best combination of security, features and value of any solutions in this price range.”

[SAM4s ER-920 with Flat Keyboard, Receipt Printer and Optional Card Reader](#)

The ER-900 supports many popular POS peripherals, including barcode scanners, integrated electronic payments, POS scales, kitchen printers, coin dispensers, and easily connects to a PC for programming or report collection. The SAM4s ECR line is available in North America through a network of authorized ECR and POS dealers. Merchants can rely on SAM4s dealers for traditional POS services including programming, training, supplies, warranty and after-warranty service.

### **About CRS, Inc.**

CRS is the importing distributor for SAM4s in the Americas and is the nation’s leading independent importer and distributor of cash registers, POS terminals, POS peripherals and parts. Visit [www.crs-usa.com](http://www.crs-usa.com) or call CRS at 1-800-333-4949 to locate a SAM4s distributor near you.

### **About SAM4s**
